

Open and Distance Education Conference: New challenges and Perspectives

6-8 November | Ellinogermaniki Agogi

Open Classroom Conference 2020 is almost starting, and fully prepared to welcome you online!

The goal of this conference is to explore the idea of “Open School” where learning takes place in innovative ways, bringing together families, community groups, local businesses, experts, universities, into an innovation ecosystem. The conference will take place through Zoom and YouTube with an extra bonus: Participants will be able to virtually meet at the conference's virtual hall of Ellinogermaniki Agogi in Second Life.
