What is inSTEAM?

inSTEAM is a project that aims to offer teachers and students a series of resources that will promote **individualized**, **inclusive** and **personalized** teaching and learning. The whole project will focus on **STEAM** (Science, Technology, Engineering, Arts and Mathematics) education in an innovative interdisciplinary framework that reduces disparities in access to and engagement with digital education.

[Visit website](#)

The inSTEAM team will support all teachers that join the project and will share several prepared lessons as well as guidelines on how to implement inclusive environmental lessons in everyday teaching! Register to participate and be part of this international community of teachers, trainers and researchers.
