

Inclusive Environmental STEAM Education with Online Labs

Dear community! InSTEAM has come to an end with great results thanks to all the amazing teachers that have joined our adventure!

InSTEAM was an Erasmus+ project but it was much more than that. It was a journey through inclusion, sustainability and climate action. It was a path that we travelled together with all the teachers and students that have joined us and it will be a legacy for future projects and collaborations.

The project has reached its end but the team continues to support all teachers that want to innovate and contribute to a better world through education!

What have we achieved?

Over 4000 students impacted by the project

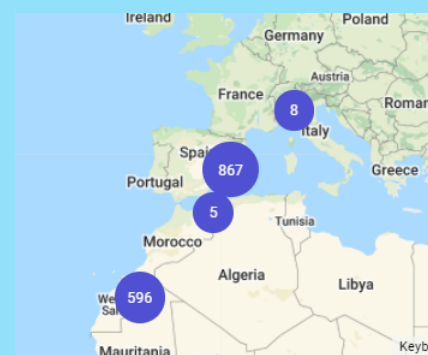

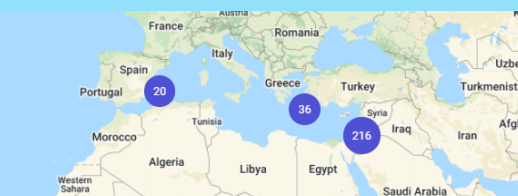

24 Inclusive learning scenarios in 5 languages

More than 200 teachers trained on the methodology

More than 18 countries reached

THANK YOU FOR BEING PART OF THIS ADVENTURE!

All the materials and resources will remain available on the InSTEAM website.

Inclusive Lessons based on equality, Design Thinking and on the principles of Universal Design for Learning

Inquiry Learning Scenarios about Environmental and Social Education using online labs and interactive exercises

Guidelines for implementation and constant support from the team and the international InSTEAM community of teachers
